

CREATING SPACES TO EXCEL

WELCOME TO GATIK JUNIOR COLLEGE

Who says learning is not fun...at Gatik it is

“ ONLY 20% of the five million students who graduate every year get employed - Associated Chambers of commerce and industry of india report, 2017 ”

Rote learning instils in students a sort of complacency for more than 12 years of education and they are unable to make the shift from un-questioning learners to innovators in the job market.

OUR APPROACH

With more than 20 years of experience in the field of education, when it comes to learning in the 21st century we at Gatik Junior College believe in an approach that focuses not only on the syllabus and academic excellence but one that helps students develop

CHARACTER

CREATIVITY

VALUES

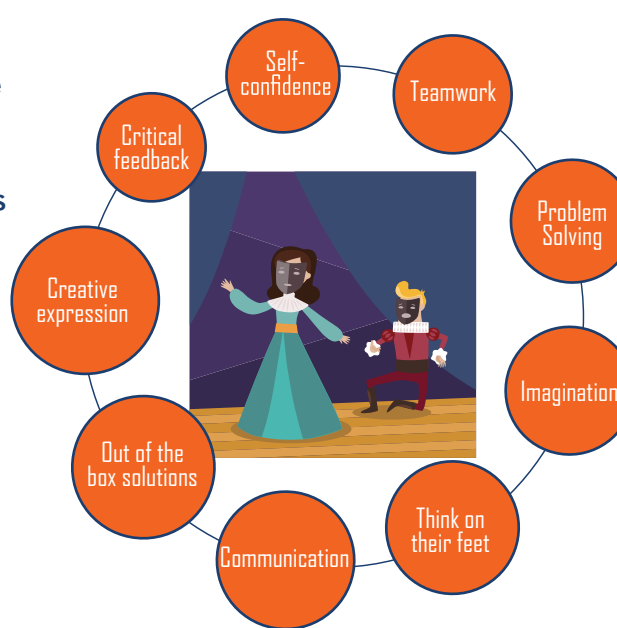

A SPIRIT OF LEADERSHIP

BEYOND THE CLASSROOM

At GJC, we understand that scholastic excellence alone does not help students succeed in life. To be ready for the future, other skills are needed too. These include Industry-relevant skills such as Global Business Communication, Cultural Awareness,and other Life Skills such as Social and Emotional Intelligence.

This premise has led us to collaborate with psychologists and brain-based learning experts to design holistic learning models that are centered around the learner.

We strongly believe that a comprehensive learning environment should inspire, encourage, stimulate and mentor students into becoming well-rounded individuals

AN EYE ON THE FUTURE
